

The background is a solid dark blue. In the four corners, there are intricate, light blue geometric patterns. These patterns are composed of many small, repeating V-shaped or chevron-like motifs that form larger, abstract shapes resembling stylized snowflakes or traditional textile designs. The patterns are most prominent in the top-left, top-right, and bottom-left corners, with a smaller version in the bottom-right corner.

CHRISTMAS PACKAGING

Design Direction

Golden reindeer shimmer enchantingly in the Christmas glow, their warmth intertwined as they gracefully traverse a snow-embossed crimson landscape. Galloping through this winter wonderland, delicate threads of warmth blend tradition with elegance. Foiled snowflakes drift softly, whispering stories of light and shadow—messengers of blessings, joy, and festive magic.

This season, Regent Hong Kong proudly partnered with the Hong Kong Design Centre to champion innovation and social value. Our dedication to fostering local talent has led us to showcase Hong Kong's vibrant creative community. In collaboration with the renowned local design studio Wholly Wholly, we crafted bespoke gift boxes that capture the magic of the season, evoking festive warmth and elegance.

Every detail reflects a harmonious blend of tradition, artistry, and innovation, creating a storytelling experience that resonates deeply with the soul of luxury and the spirit of giving. This festive theme embodies our commitment to cultural celebration, community, and a luxurious holiday season filled with joy and meaningful connections.
